

CCSP 5 Day Bootcamp

Overview

Delivery Mode: Virtual via Zoom

We are pleased to submit this proposal for the delivery of a 5-day **Certified Cloud Security Professional (CCSP®)** Bootcamp. This intensive course is designed to prepare participants for the **2024/25 CCSP** examination from **ISC2** while strengthening their practical and theoretical understanding of **cloud security architecture, operations, and governance**.

Why Zayn Otley?

- A uniquely qualified instructor with decades of field and academic experience
- Targeted delivery that understands the nuances of international and governmental environments
- Strong post-training support that continues through to each participant's examination date
- Trusted methodologies and best-in-class materials designed around (ISC)²'s latest frameworks

Course Objectives

This CCSP Bootcamp will enable participants to:

- Understand and apply the six domains of the **(ISC)² CCSP Common Body of Knowledge (CBK)**
- Confidently prepare for the CCSP examination using structured methodology and proven study aids
- Strengthen their ability to design, manage and secure cloud-based infrastructure and services
- Align with international cloud security standards and best practices relevant to defence, government, and enterprise environments

Target Audience

This course is suitable for professionals with a background in cloud security, IT architecture, cybersecurity, or governance who are seeking CCSP certification. It is particularly relevant to those operating in cloud-based environments within governmental, multinational, or regulated sectors.

Course Delivery Format

Format: Live virtual instruction via Zoom

Duration: 5 full days (typically 09:30 – 16:30 CET)

Style: Interactive sessions with extensive instructor-led discussion, real-world scenarios and workshops, daily domain quizzes and guided revision techniques

Course Content

The course covers all six CCSP CBK domains:

- 1. Cloud Concepts, Architecture and Design
- 2. Cloud Data Security
- 3. Cloud Platform and Infrastructure Security
- 4. Cloud Application Security
- 5. Cloud Security Operations
- 6. Legal, Risk and Compliance

The final day includes a comprehensive review session, exam preparation strategy, and a mock test.
