

CRISC[®] 4 Day Bootcamp

Overview

Delivery Mode: Virtual via Zoom

This intensive programme prepares IT risk professionals for advanced roles in risk management and information systems control by aligning their knowledge with the four domains of the Certified in Risk and Information Systems Control (CRISC[®]) examination from ISACA. Designed for experienced professionals in IT risk management, this course equips participants with the frameworks and competencies required to identify, assess, respond to, and monitor IT risks effectively across the enterprise.

Why Zayn Otley?

- A uniquely qualified instructor with decades of field and academic experience
- Targeted delivery that understands the nuances of international and governmental environments
- Strong post-training support that continues through to each participant's examination date
- Trusted methodologies and best-in-class materials designed around **ISACA's** latest frameworks

Course Objectives

This CRISC® Bootcamp will enable participants to:

- Understand and apply the four CRISC® domains in real-world risk management settings
- Prepare for the ISACA CRISC® exam using structured methodology and proven study aids
- Build proficiency in IT risk governance, assessment, response, and monitoring
- Validate risk management expertise in line with ISACA global standards

Target Audience

This course is ideal for IT risk managers, risk analysts, control professionals, compliance officers, IT auditors and professionals aiming for CRISC® certification. It also meets requirements for those pursuing ISACA's CRISC® certification in line with industry frameworks and government standards.

Course Delivery Format

Format: Live virtual instruction via Zoom

Duration: 4 full days (typically 09:30 – 16:30 CET)

Style: Interactive sessions with extensive instructor-led discussion, real-world scenarios and workshops, daily domain quizzes and guided revision techniques

Course Content

The course covers the following four domains of the CRISC® exam:
