

CySA+ 5 Day Bootcamp

Overview

Delivery Mode: Virtual via Zoom

We are pleased to submit this proposal for the delivery of a 5-day **CompTIA CySA+ (CS0-003)** Bootcamp. This intensive course is designed to prepare participants for the **CySA+** examination from **CompTIA** while strengthening their practical and theoretical understanding of **security operations, vulnerability management, incident response, and threat analysis across four key domains..**

Why Zayn Otley?

- A uniquely qualified instructor with decades of field and academic experience
- Targeted delivery that understands the nuances of international and governmental environments
- Strong post-training support that continues through to each participant's examination date
- Trusted methodologies and best-in-class materials designed around CompTIA certification standards

Course Objectives

This CySA+ Bootcamp will enable participants to:

- Understand and apply the four domains of the **CompTIA CySA+ (CS0-003)** exam
- Confidently prepare for the CySA+ certification using structured study methods and targeted practice
- Master advanced techniques for threat detection, vulnerability management, and incident response
- Demonstrate practitioner-level skills for roles in SOC operations, threat analysis, and security monitoring

Target Audience

This course is designed for cybersecurity practitioners with hands-on experience in security operations. It is especially valuable for SOC analysts, incident responders, vulnerability analysts, threat hunters, and security engineers with 3-4 years of experience. Participants should have **Network+** and **Security+** or equivalent knowledge. This certification is ideal for roles requiring compliance with **DoD 8140**.

Course Delivery Format

Format: Live virtual instruction via Zoom

Duration: 5 full days (typically 09:30 – 16:30 CET)

Style: Interactive sessions with extensive instructor-led discussion, real-world scenarios and workshops, daily domain quizzes and guided revision techniques

Course Content

The course covers all four domains of the CySA+ CS0-003 exam:

- 1. Security Operations (33%)
- 2. Vulnerability Management (30%)
- 3. Incident Response and Management (20%)
- 4. Reporting and Communication (17%)

The final day includes a comprehensive review session, exam strategy guidance, and a timed practice exam.

Materials Provided

Each participant will receive:

- Sybex CompTIA CySA+ Study Guide: Exam CS0-003, 3rd Edition
- Access to Sybex's Online Learning Environment, including:
- Access to online practice exams with 600+ questions
- Electronic flashcards and key term glossaries
- A searchable PDF glossary of key terms
- Instructor-curated study materials for SOC operations
- Thousands of test bank questions including performance-based scenarios
- Practice labs for threat analysis and incident response
- Extra learning resources and exam preparation tools
