

Linux+ 5 Day Bootcamp

Overview

Delivery Mode: Virtual via Zoom

We are pleased to submit this proposal for the delivery of a 5-day **CompTIA Linux+ (XK0-005)** Bootcamp. This intensive course is designed to prepare participants for the **Linux+** examination from **CompTIA** while strengthening their practical and theoretical understanding of **Linux systems administration, security, and troubleshooting across essential operational domains.**

Why Zayn Otley?

- A uniquely qualified instructor with decades of field and academic experience
- Targeted delivery that understands the nuances of international and governmental environments
- Strong post-training support that continues through to each participant's examination date
- Trusted methodologies and best-in-class materials designed around CompTIA certification standards

Course Objectives

This Security+ Bootcamp will enable participants to:

- Gain a practical understanding of Linux system administration and command-line operations
- Prepare for the **CompTIA Linux+ (XK0-005)** exam using proven study methods and practice resources
- Develop capabilities in configuration, scripting, security, and performance management
- Demonstrate readiness for job roles involving Linux support, security, and cloud-based operations

Target Audience

This course is ideal for IT professionals, sysadmins, or security personnel who use or manage Linux systems. It also supports **DoD 8140/8570-aligned** roles where **Linux+** certification is an accepted credential.

Course Delivery Format

Format: Live virtual instruction via Zoom

Duration: 5 full days (typically 09:30 – 16:30 CET)

Style: Interactive sessions with extensive instructor-led discussion, real-world scenarios and workshops, daily domain quizzes and guided revision techniques

Course Content

The course covers the following exam objectives from CompTIA Linux+ (XK0-005):

- 1. System Management
- 2. Security
- 3. Scripting, Containers, and Automation
- 4. Troubleshooting

The final day includes a comprehensive review session, exam strategy guidance, and a timed practice exam.

Materials Provided

Each participant will receive:

- Official Sybex Security+ (XK0-005) Study Guide
- Access to Sybex's Online Learning Environment, including:
- Access to online practice exams with 600+ questions
- Electronic flashcards and key term glossaries
- A searchable PDF glossary of key terms
- Instructor-curated study materials
- Thousands of test bank questions
- Practice labs and real-world scenario walkthroughs
- Extra learning resources and revision tools

Trainer Profile

Zayn Otley is a distinguished cybersecurity instructor and certified information security professional with more than three decades of global experience across the defence, corporate, and government sectors. With a unique background spanning hands-on software engineering, cloud security architecture, and executive leadership (CISO/CTO roles), technical excellence is combined with real-world insight in every course delivered.

Possessing multiple advanced certifications including **CISSP, CCISO, CCSP, CEH**, is an **EC-Council Certified Instructor (CEI)** and holds a Post Compulsory Teaching Degree (Cert Ed) from The University of Central Lancashire. His 21 year teaching career includes training over 15,000 IT and security professionals worldwide – including personnel from NATO, the US Army in Europe, the UK Ministry of Defence and major global corporations across North America, SE-Asia, Europe and the Middle East.

A native speaker of British English and conversant in multiple European languages, enabling him to engage effectively across diverse, international audiences. Zayn's instructional approach is learner-centred, grounded in deep industry knowledge, and focused on equipping participants with practical skills and exam-ready confidence. His commitment to excellence and mission-aligned delivery makes him uniquely suited to supporting the educational goals of individuals and organisations.

Support

Participants receive:

- Email support directly from the instructor up until the day of their scheduled Linux+ exam
- Guidance on exam booking, study pacing and overcoming specific topic challenges

Pricing

<u>Item</u>	<u>Cost (USD)</u>
5-Day Bootcamp (per person)	\$2795
XK0-005 Exam Voucher (optional)	\$425
Exam Retake Assurance (optional)	\$49

All prices are quoted in US dollars. Group bookings or further support arrangements can be discussed upon request.

Scheduling Options

Please contact our scheduling team by booking a consultation call on our website:

- <https://zaynotley.com>

Final scheduling will be confirmed in coordination with your team's availability and operational requirements.

Next Steps

We would be pleased to discuss any adjustments to meet your specific needs. To proceed or request further information, please contact via:
