

TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner 4 Day Bootcamp

Overview

Delivery Mode: Virtual via Zoom or On-Site

We are pleased to submit this proposal for the delivery of a 4-day **TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner** Bootcamp. This intensive course is designed to prepare participants for The Open Group **TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner** certification examinations (OGEA-101 and OGEA-102) while building deep understanding of enterprise architecture frameworks and the Architecture Development Method (ADM).

Note: This training is delivered by accredited TOGAF®™ certified instructors in partnership with Zayn Otley Cybersecurity Training.

Why this TOGAF®™ Training?

- Accredited TOGAF®™ certified instructors with real-world enterprise architecture experience
- Proven success with defense, government, and enterprise clients requiring TOGAF®™ expertise
- Hands-on application of ADM phases with practical exercises and case studies
- Official The Open Group materials and certification exam preparation

Course Objectives

This TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner Bootcamp will enable participants to:

- Master The TOGAF®™ Enterprise Architecture Standard (10th Edition) and its enterprise architecture framework
- Apply the Architecture Development Method (ADM) across all phases from preliminary planning through architecture change management
- Confidently prepare for TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner certification (OGEA-101 and OGEA-102)
- Develop and manage enterprise architecture across complex organizational environments
- Align enterprise architecture initiatives with business strategy and operational requirements

Target Audience

This course is designed for enterprise architects, solution architects, IT architects, business architects, and consultants responsible for developing, implementing, or maintaining enterprise architecture frameworks. It is particularly valuable for defense, government, and large enterprise professionals requiring TOGAF®™ expertise. The course suits professionals working in governmental, multinational, and cross-functional roles where systematic enterprise architecture approaches are essential.

Course Delivery Format

Format: Live virtual instruction via Zoom or On-Site

Duration: 4 full days (typically 09:30 – 16:30 CET)

Style: Interactive workshops with ADM phase exercises, architecture case studies, group discussions, and comprehensive exam preparation

Course Content

The course covers The TOGAF®™ Enterprise Architecture Standard (10th Edition) including:

- 1. Architecture Development Method (ADM)
- 2. Preliminary Phase
- Phase A: Architecture Vision
- Phase B: Business Architecture
- Phase C: Information Systems Architecture
- Phase D: Technology Architecture
- Phase E: Opportunities and Solutions
- Phase F: Migration Planning
- Phase G: Implementation Governance
- Phase H: Architecture Change Management
- Requirements Management
- Additional Key Topics
- Enterprise Architecture Frameworks and Fundamental Concepts
- Architecture Content Framework and Deliverables
- Stakeholder Management and Architecture Governance
- Architecture Repository and Tools
- Enterprise Continuum and Architecture Partitioning
- Architecture Capability Framework

The final day includes comprehensive TOGAF®™ Enterprise Architecture Standard (10th Edition) Practitioner exam preparation, practice scenarios, and review of certification requirements.

Materials Provided

Each participant will receive:

- ➔ Official The Open Group TOGAF®™ Enterprise Architecture Standard (10th Edition) Study Guide
- ➔ TOGAF®™ Enterprise Architecture Standard (10th Edition) documentation
- ➔ ADM phase templates and architecture deliverable examples
- ➔ Practice exam questions for OGEA-101 and OGEA-102
- ➔ Enterprise architecture case studies and workshop materials
- ➔ Architecture Repository templates
- ➔ Comprehensive study resources and quick reference guides

Trainer Profile

This TOGAF®™ bootcamp is delivered by accredited TOGAF®™ certified instructors with extensive enterprise architecture experience across defense, government and large-scale enterprise environments. Our instructors combine deep theoretical knowledge of The TOGAF®™ Standard with practical, real-world implementation experience.

Training is conducted in partnership with **Zayn Otley Cybersecurity Training**, ensuring the same high standards of instructional excellence, learner-centered approach, and mission-aligned delivery that have supported the educational goals of NATO, the US Army in Europe, the UK Ministry of Defence, and major global corporations.

With expertise spanning multiple languages and international delivery experience across North America, SE-Asia, Europe, and the Middle East, our instructors effectively engage diverse, international audiences while maintaining focus on practical skills and certification-ready confidence.

Support

Participants receive:

- Support from accredited TOGAF®™ instructors up until your scheduled TOGAF®™ Practitioner exams
- Guidance on exam registration, ADM application, and enterprise architecture best practices
- Post-course consultation for architecture framework implementation
